HUGHSTON HOMES: CONCRETE PUMP BID SHEET (Boom / Line Pumping Service)

Georgia & Alabama Operations · Bid Form & Leveling Schedule · v1.1

IMPORTANT: On the Bid Form tab, select the State(s) this bid covers. If your Georgia and Alabama pricing differs, submit one bid per state.

HOW TO USE THIS SHEET

1. Bidder (pump operator): complete the header and shaded price cells on the “Pump Bid Form” and “Terms” tabs. Do not change descriptions or units.
2. Prices are firm for the term stated on the Bid Form. Any later increase requires ninety (90) days’ prior written notice per the Master Subcontract Agreement (to Jennifer Ledford and Carrie Bishop).
3. Bid to the documents: Concrete Pump Scope of Work (HH-CPMP-SOW-001, v1.5) and the Concrete Specification (HH-CON-SPEC-001, v1.6), read with the Master Subcontractor General Requirements.
4. This sheet prices pumping SERVICE only, furnishing and operating boom and/or line pumps with a certified operator. Ready-mix supply and placing/finishing are bid separately.

SPECIFICATION BASIS: ALL BIDS PRICED TO THESE (apples-to-apples)

- Furnish a boom and/or line pump of adequate output and reach, with a qualified, certified operator, to convey concrete from the supplier’s truck to the point of placement per the pour schedule.

- Mobilize, set up, prime, operate, and demobilize; furnish priming grout/slurry and capture it (never on the ground). Maintain continuous delivery to avoid cold joints.
- No water added to the mix for pumpability, pumpability is coordinated with the supplier at the plant per the Spec.
- Maintain OSHA overhead-line clearance (≥20 ft up to 350 kV per 1926.1408), use a spotter, and set outriggers fully; ACPA safety practices apply.
- Protect finished/adjacent surfaces; keep community streets clean and remove spillage/track-out the same day (General Requirements).

Bid basis: HH-CPMP-SOW-001 v1.5 · HH-CON-SPEC-001 v1.6 · Master Subcontractor General Requirements v1.3.

CONCRETE PUMP: BID FORM

Program / Community: _____
Pump Operator (Bidder): _____
Contact / phone / email: _____
Markets serviced: _____
Prices firm through (date): _____
Date: _____

Legend: shaded cells = enter your price. Bidders may price boom (A), line (B), or both.

Step 1 State(s) this bid covers (REQUIRED):

Choose Georgia, Alabama, or Both (same pricing). If your pricing differs by state or county, submit one bid per area.

Step 2 Areas / counties serviced (mark X in the box for each area you cover)

If your pricing differs by county, complete and submit a SEPARATE bid sheet for EACH county (one Excel per pricing area).

Georgia

	Appling / Evans
	Columbus
	Forsyth
	Harris County
	LaGrange
	Midland
	Newnan
	Perry
	Warner Robins

Alabama

	Auburn
	Opelika
	Lee County
	Fort Mitchell
	Other (specify area):

Step 3 Complete the bid form below.

A. PUMP SERVICE: BOOM PUMP

Item	Description	Unit	Unit Price	Notes

A.1	Boom pump, mobilization / setup (incl. priming)	per pour		state boom size/reach in Notes
A.2	Boom pump, pumping	per CY		
A.3	Boom pump, minimum charge per pour	per pour		or state minimum yards
A.4	Boom pump, flat day rate (alternative to A.1+A.2)	per day		if offered

B. PUMP SERVICE: LINE PUMP

Item	Description	Unit	Unit Price	Notes
B.1	Line pump, mobilization / setup (incl. priming)	per pour		
B.2	Line pump, pumping	per CY		
B.3	Line pump, minimum charge per pour	per pour		
B.4	Additional hose / line	per 50 ft		beyond standard run

C. TIME, ACCESS & CONDITIONS

Item	Description	Unit	Unit Price	Notes
C.1	Standby / wait time after allowed	per hour		state free time in Terms
C.2	Extended reach / difficult access surcharge	per pour		describe in Notes
C.3	Saturday / after-hours	per pour		
C.4	Fuel surcharge	per pour		state basis in Terms

D. OTHER

Item	Description	Unit	Unit Price	Notes
D.1	Washout / priming-slurry containment & disposal	per pour		
D.2	Priming grout/slurry			included, no charge

CONCRETE PUMP: TERMS

COMMERCIAL TERMS (bidder completes shaded cells)			
Item	Term	Value	Notes
T.1	Price validity, prices firm through		then 90-day written notice to increase (MSA)
